# Skills Development Providers' Capacitation Workshops Overview

# Overview of Skills Development Providers' Capacitation Workshops

The QCTO capacitation workshops are designed to equip Skills Development Providers (SDPs) with the essential knowledge and practical skills they need to implement and manage occupational qualifications, part- qualifications and skills programmes in line with QCTO quality-assurance standards.

## Workshop Objectives

- Equip SDPs to meet QCTO quality-assurance standards
- Improve understanding and implementation of occupational qualifications, part- qualifications and skills programmes
- Support the transition from historically registered (pre-2009 qualifications and unit standards) to QCTO qualifications
- Promote best practice for quality assurance and learner success

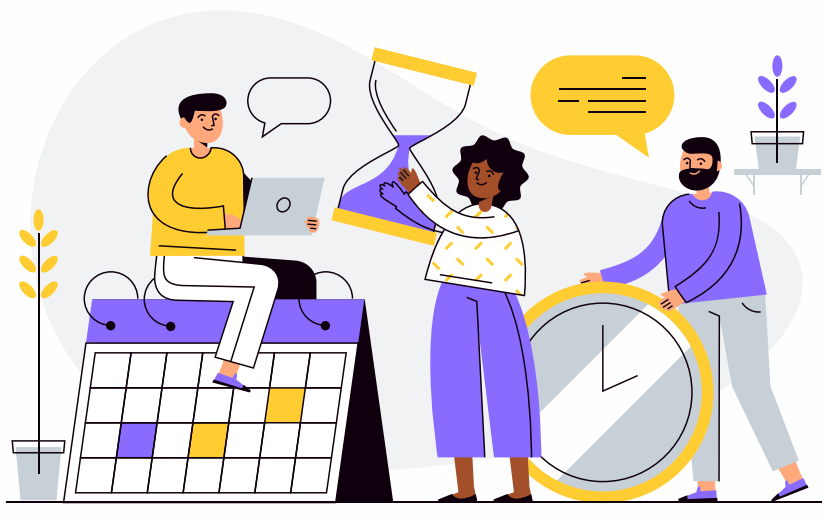

## Who Should Attend?

- Prospective and existing SDPs
- Administrative staff involved in occupational qualification and skills programme delivery

## Benefits of Attending

- Gain a clear understanding of the QCTO's quality-assurance standards.
- Receive practical guidance on implementing occupational qualifications and skills programmes, including workplace integration and assessment practices.
- Enhance your capacity to manage learner enrolment, record-keeping and compliance with QCTO standards.
- Learn how to prepare effectively for final Assessments, the External Integrated Summative Assessments (EISAs) and the Final Integrated Supervised Assessments (FISAs), along with quality-assurance monitoring.
- Network with QCTO officials and fellow SDPs to share best practices and receive ongoing support.
- Engage on the value of Subject Matter Expertise (SME) and how this contributes to quality education and training.
